December's Car of the Month

1958 Chevrolet C1 Corvette

This little beauty was donated by Ned McCarty Built by Cary Faber

In an era of chrome and four headlamps, the Corvette adapted the look of the day. The 1958 model year and the four that followed all had the exposed four-headlamp treatment and prominent grilles, but a faux-louvered hood and chrome trunk spears were unique to this model year. The interior and instruments were updated, including placing a tachometer directly in front of the driver.

Come in, see this awesome example of creativity and craftsmanship up close and person!

Collectors Corner

This Month's M.A.M. Member is Bobby Cook

Bobby has an artist's eye for creating an exhibit that stirs the imagination and wonder of days long past. His most recent creation is our automotive memorability display room which also highlights the life of Mel Martin, Founder of The Martin Auto Museum & Event Center.

As you walk around this room and gaze upon these items, try to put yourself in the shoes of those who used the tools, instruments and shop manuals that are displayed here.

Worldly Visitors

This month's guest is from the North Pole
